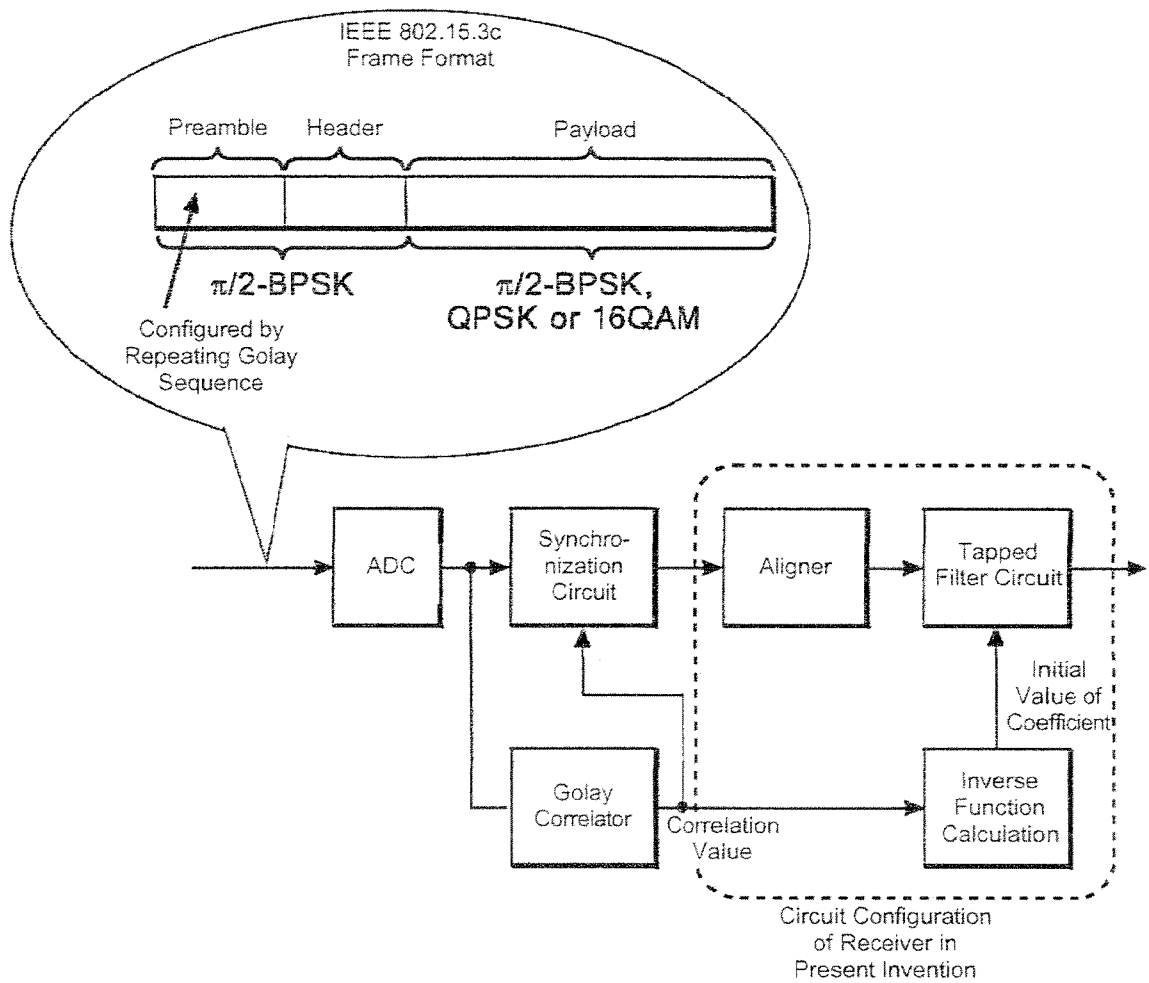

FIG. 3

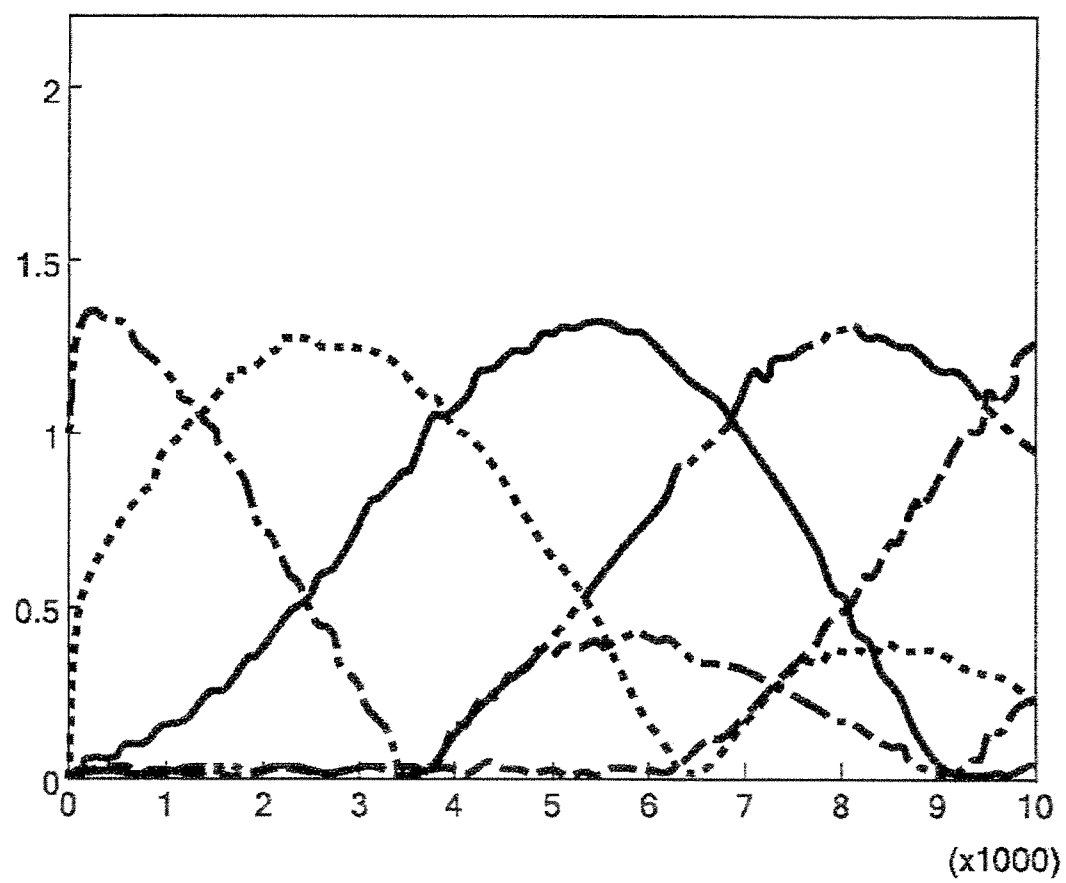

FIG. 4

Received Data Series	Tap Coefficient
7654321 Odd Phase 531 Even Phase 642 Normal form.	3rd, 2nd, 1st. W5W3W1 W6W4W2 Normal form when tap coefficient W_3 is at maximum.
7654321 Odd Phase 421 Even Phase 531 1st data set is repeated when the sampling frequency of the receiver is slower than that of the transmitter.	W4W20 W5W3W1 Maximum tap coefficient shifts because of transition from W_3 to W_2.
7654321 Odd Phase 642 Even Phase 753 1st data set is skipped when the sampling frequency of the receiver is faster than that of the transmitter.	W6W4W2 0W5W3 Maximum tap coefficient shifts because of transition from W_3 to W_4.
