DESCRIPTION

TITLE

CONTAINER REFRIGERATION APPARATUS

TECHNICAL FIELD

[0001]

The present disclosure relates to a container refrigeration apparatus.

BACKGROUND ART

[0002]

Patent Document 1 discloses a container refrigeration apparatus. The container refrigeration apparatus is applied to a container that transports an object, such as food, and performs a cooling operation of cooling the inside of the container. Paragraph [0099] of Patent Document 1 discloses the following: when the temperature inside the refrigerator reaches a predetermined temperature through a cooling operation, the compressor stops and the ventilator performs an operation of introducing outside air into the container.
