With amended claims.	

(54) Title: HERMETIC MOTOR COMPRESSOR

(57) Abstract

A hermetic motor compressor includes a generally spherical casing having a generally spherical side wall and a first downwardly curved bottom wall, an integrated structure accommodated in said casing and having a compression section and a drive section integrally formed with each other, and a plurality of supporting units for elastically supporting the integrated structure. A plurality of legs are secured to the first downwardly curved bottom wall, and each of them is of the same shape as the downwardly curved bottom wall.
