(54) Title: PACK FOR PREPARING FOOD OR BEVERAGE PRODUCTS, USE THEREOF AND METHOD THEREWITH

FIG. 1

(57) Abstract: The invention relates to a pack (100) for the preparation of a food or beverage product comprising an insert (10) and a container (20), the container (20) being configured by at least one sheet folded in such a way to configure a container where the ingredients for the food or beverage product are stored, the water to extract and/or infuse and/or dissolve and/or reconstitute the ingredients in the container (20) and to prepare the food or beverage product being introduced through the insert (10), the food or beverage product once prepared being also dispensed through this insert (10), the pack (100) presenting a generally plane shape and being essentially vertically oriented during food or beverage production with the insert (10) arranged at the lower side of the pack (100) so the water is supplied into the volume of the container in an upward direction; such that the insert (10) is a part that is arranged connected externally to the container (20). Typically, the insert (10) is a part that is arranged externally and connected to the container

(20), the insert (10) is tightly sealed and/or glued to the container (20). The invention further relates to the use of a pack (100) as the one described for preparing a food or beverage product and further relates to a method for preparing a food or beverage product using such a pack (100).
