

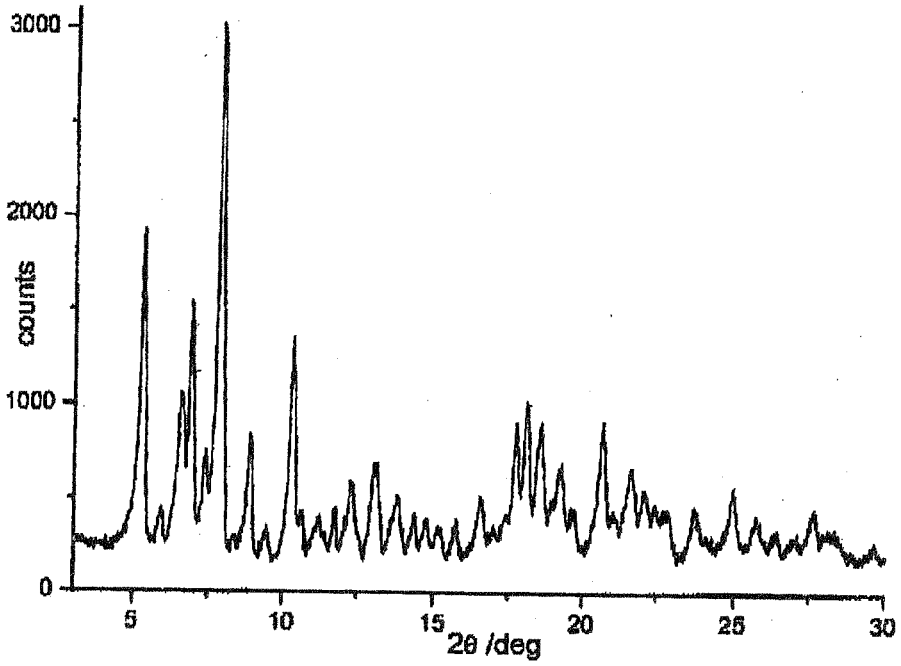

Figure 1

Powder X-ray diffractogram of rifaximin polymorphous form β in the presence of 1,2-propanediol.

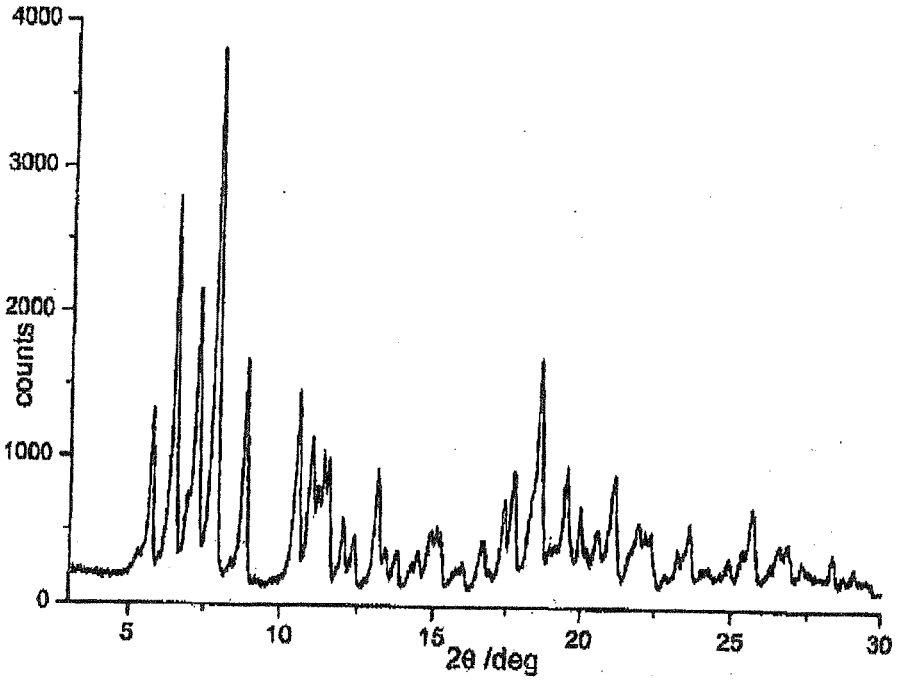

Figure 2

Powder X-ray diffractogram of rifaximin polymorphous form α without 1,2-propanediol.

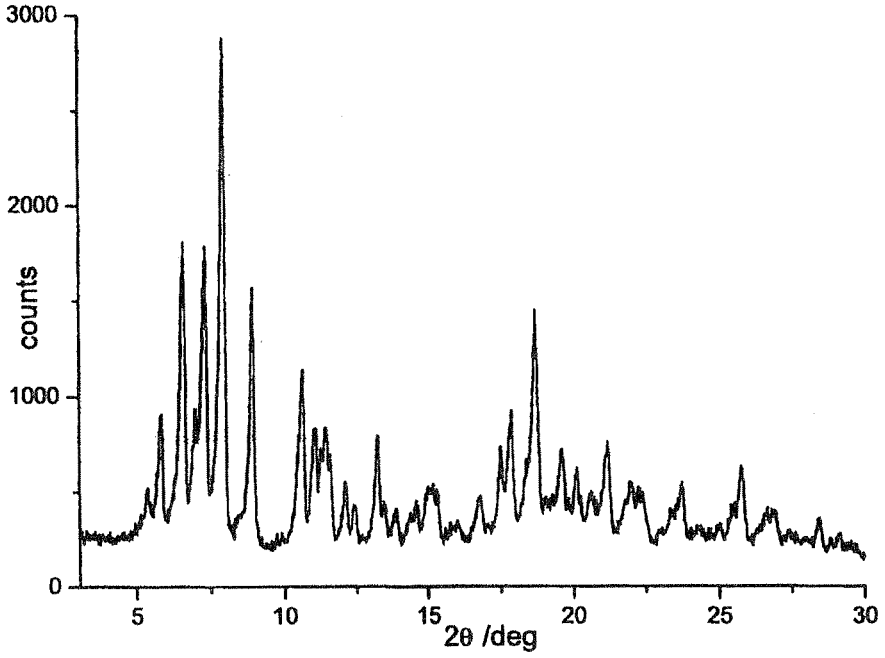

Figure 3

Powder X-ray diffractogram of rifaximin polymorphous form α in the presence of 1,2,3- propanetriol triacetate.

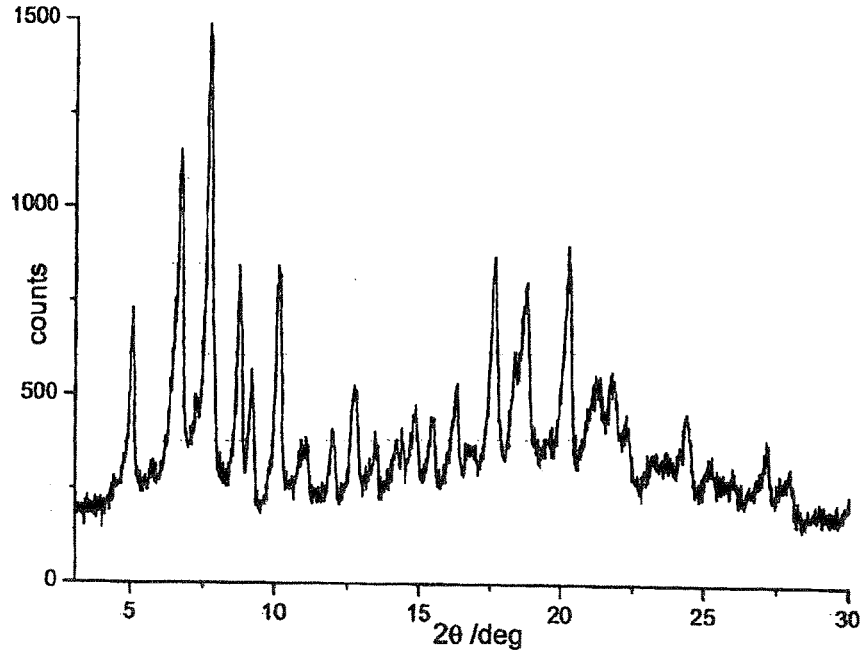

Figure 4

Powder X-ray diffractogram of rifaximin polymorphous form β in the presence of PEG 400.

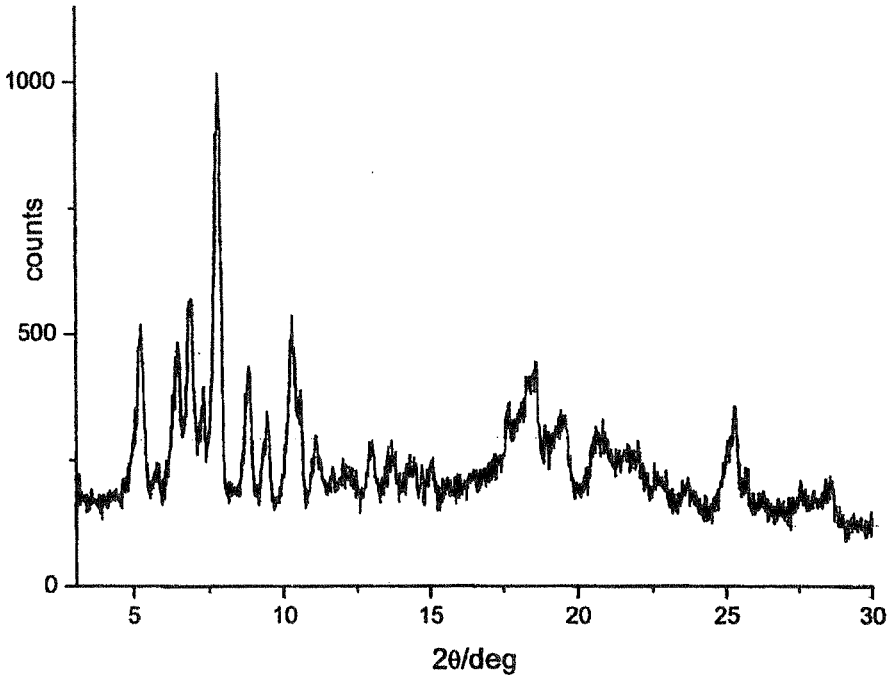

Figure 5

Powder X-ray diffractogram of rifaximin polymorphous β gastroresistant microgranules in the presence of 1,2- propendiol
