

ABSTRACT**SYSTEM AND METHOD FOR SINTERING STRUCTURES ON A BASE**

5 The invention provides a system and a method for sintering one or more structures on
a base (10). The system comprises at least one sinter unit (50) that is configured to sinter
the structures on the base (10). More specifically, the sinter unit (50) shall apply force
and provide heat to the structures on the base (10) for the structures to sinter, in which
a plate (521) is made to be adjacent to the structures on the base (10).
