(54) Title: A SYSTEM FOR PROVIDING PROFESSIONAL SERVICES

(57) Abstract: A system for providing professional services is provided. The system comprises jurisdiction selection means for selecting a jurisdiction, service selection means for selecting a professional service from a plurality of professional services available for the selected jurisdiction, and means for supplying the selected service. The professional services may be grouped according to categories and category selection means is arranged for selecting a category for a required professional services. The invention may also have means for obtaining information for incorporation into the selected professional service. The system has a document creation means adapted to automatically create a document for a selected jurisdiction using the information obtained from a user. An affiliate matching arrangement is provided for matching professional services with the affiliated professionals responsible for the services and an affiliate payment arrangement is adapted to distribute payment revenues to the affiliate professionals. The system is arranged to be accessible on the Internet.
