

ABSTRACT**VEHICLE SEAT COVER SYSTEM**

5 A vehicle seat cover arrangement comprising a vehicle seat (1) having an outer
surface; an interchangeable vehicle seat cover (2) having an inner surface integrally made
from a plush-like material with a loops-like structure; and a sheet-like attachment means (15)
having a hooks-like surface and attached on to the outer surface of the vehicle seat (1),
wherein the seat cover (2) is closely fitted on to the vehicle seat (1) by engagement between
10 the loops-like structure and the hooks-like surface.
