(54) Title: SYSTEM AND METHOD FOR REWARDING COMMUTERS

Figure 1

(57) Abstract: This invention provides for tracking and rewarding commuters according to their contribution to unclogging roads by opting for alternative transport forms and improving their health and the health of the environment. In particular, the invention relates to commuters who travel under human power to and from their place of work and who sign up as subscribers to a managed system that tracks their travel events, compares data gathered about the event with other events and determines whether or not the event qualifies as a commute, in which case an account of the user is credited. When the accumulated credit in the account reaches a threshold amount, the user qualifies for receiving a reward such as by means of a value token.

- *with international search report (Art. 21(3))*
- *with amended claims and statement (Art. 19(1))*

Declarations under Rule 4.17:

- *as to the identity of the inventor (Rule 4.17(i))*
- *as to applicant's entitlement to apply for and be granted a patent (Rule 4.17(ii))*
- *as to the applicant's entitlement to claim the priority of the earlier application (Rule 4.17(iii))*

(88) Date of publication of the international search report:

24 July 2014

Date of publication of the amended claims and statement:

12 September 2014
