

A POWER TRAIN FOR AN AMPHIBIAN

ABSTRACT

5 The present invention provides, with reference to Figure 1,
a power train for an amphibian, the power train comprising a
first prime mover, a first land propulsion means, and a first
marine propulsion means. The first prime mover is arranged to
selectively drive the first land propulsion means, or the first
10 marine propulsion means, or both. The power train further
comprises a second prime mover. The second prime mover is
arranged to selectively drive the first land propulsion means, or
the first marine propulsion means, or both, either in place of
the first prime mover or in addition thereto.
