(54) Title: CONTAINERS AND METHODS FOR STORING AND ADMIXING MEDICAL SOLUTIONS		
(57) Abstract <p>Containers and methods for storing medical solutions are provided. More specifically, containers and methods for storing components that are to be admixed together to create a final solution, one of the components comprising a lipid. In an embodiment, a container including an interior defining at least two chambers. The first chamber includes a lipid containing liquid. The second chamber includes a liquid that does not include a lipid. The first and second chambers are separated by an openable seal.</p>
