

Abstract

The present disclosure relates to the technical field of communications, and relates to a paging grouping method and apparatus, a terminal device, a base station, and a storage medium. The method comprises: sending to a terminal device indication information used for indicating a paging grouping mode of the terminal device. According to the paging grouping method provided by the present disclosure, it can be ensured that the base station and the terminal device can select a consistent paging grouping mode, thereby ensuring normal running of a paging process.
