"Vending apparatus for dispensing hot pizzas"

Abstract

5 A vending apparatus for dispensing pre-cooked
pizzas (P) packaged inside corresponding sealed
containers (E). The apparatus comprises a casing (1)
containing a plurality of operating assemblies (7, 13,
17, 25, 31, 37) for picking up a pizza (P) from a
refrigerated storage unit (5) and transferring it,
10 after taking it out of its container (E), to an
electric heating oven (30), and then to a delivery
mouth (34), in a corresponding disposable tray (T).
