

ABSTRACT OF DISCLOSURE

Title of the Invention: **STACKED BODY OF WET SHEETS**

A wet sheet stacked body to be housed in one of container and package, composed of a plurality of folded wet sheets. The folded wet sheets are consecutively combined such that a lower fold of an upper folded wet sheet is sandwiched by an upper fold of a succeeding lower wet sheet. A gap is formed between a folding line forming the lower folded portion of the upper wet sheet and a folding line forming the upper folded portion of the lower wet sheet.
