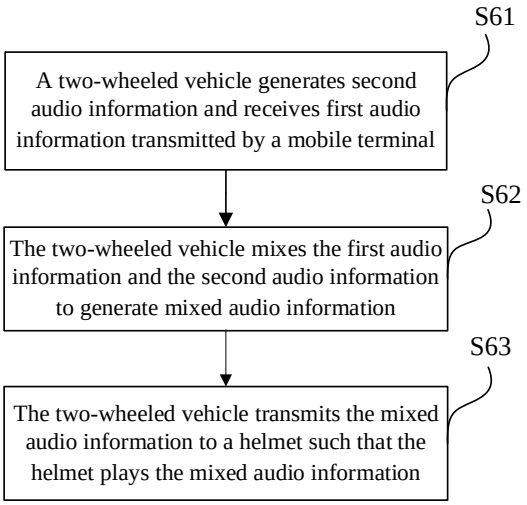
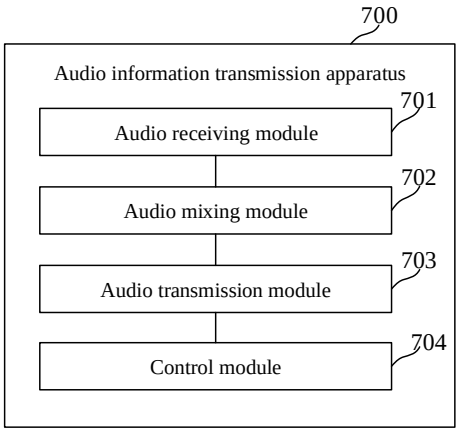
FIG. 6



S61
A two-wheeled vehicle generates second audio information and receives first audio information transmitted by a mobile terminal
S62
The two-wheeled vehicle mixes the first audio information and the second audio information to generate mixed audio information
S63
The two-wheeled vehicle transmits the mixed audio information to a helmet such that the helmet plays the mixed audio information

FIG. 7



700
Audio information transmission apparatus
701
Audio receiving module
702
Audio mixing module
703
Audio transmission module
704
Control module
