

ABSTRACT

**RECORDING MEDIUM DESTRUCTING DEVICE,
RECORDING MEDIUM DESTRUCTING SYSTEM,
5 ELECTRONIC APPARATUS MANAGING DEVICE,
AND COMPUTER PROGRAM**

A recording medium destructing device capable of confirming the fact that an out-of-use recording medium has been rendered unreadable. The recording medium destructing device (91), which drives a pin (1) to allow it to
10 destruct information recorded on a recording medium (15) unreproducibly, is provided with a means (50) for monitoring the destructing situation of the recording medium (15). A means for imparting a code number to a recording medium (15) being destructed, and a means for recording the code number of the destructed recording medium when the recording medium (15) is destructed
15 and the time and date of destruction are also provided.
