(54) Title: METHODS AND APPARATUSES FOR OPERATING A PORTABLE DEVICE BASED ON AN ACCELEROMETER

(57) Abstract: Methods and apparatuses for operating a portable device based on an accelerometer are described. According to one embodiment of the invention, an accelerometer attached to a portable device detects a movement of the portable device. In response, a machine executable code is executed within the portable device to perform one or more predetermined user configurable operations. Other methods and apparatuses are also described.
