

**POLY(ETHYLENE GLYCOL) GEMINAL ESTER PHOSPHATE, USE AS
ADDITIVE IN HYDRAULIC COMPOSITIONS AND COMPOSITIONS
CONTAINING SAME**

5

ABSTRACT

10 The present invention relates to the technical field of hydraulic compositions, for example concrete and mortar compositions. More specifically, the present patent application relates to additives used in hydraulic compositions, to the compositions containing same, and also to the method for preparing these additives and to the various uses thereof.
