(54) Title: AZEOTROPE-LIKE SOLVENT BLENDS EXHIBITING LOW GLOBAL WARMING POTENTIAL AND METHODS OF USE

(57) Abstract: Cleaning solvent blends comprising an HCFO such as 1-chloro-2,3,3,- trifluoropropene; trans-dichloroethylene; and a high boiling HEE such as HFE-7300; have utility as a non-flammable, low-global warming potential, azeotrope-like cleaning solvent compositions. Additional solvent ingredients may include surfactants and co-solvents. A method for cleaning articles of soiling substances comprises contacting the articles with the solvent composition by any suitable means such as a spray delivered by a propellant gas, or by contact with liquid and/or vapor solvent compositions, as in a conventional vapor degreaser apparatus, and removing the composition from the articles.
