Fig. 16

A diagram of a circular structure, possibly a ring or a cross-section of a cylinder. The structure is composed of two concentric circles with radial lines connecting them. Various labels and arrows are present:

- H-H**: A label at the top left, possibly indicating a horizontal section.
- 1**: An arrow pointing to the outer circle on the left side.
- S**: An arrow pointing to a small vertical line segment on the outer circle at the top.
- 19**: A label at the top, with lines pointing to a specific point on the outer circle and a small triangular structure above it.
- F**: A label on the right side, with lines pointing to a specific point on the outer circle and a small structure below it.
- I**: Two arrows pointing upwards from the bottom right, one pointing to the outer circle and the other to the inner circle.
