

ABSTRACT

DATA PROCESSING METHOD, DATA PROCESSING APPARATUS, ELECTRONIC DEVICE AND STORAGE MEDIUM

5

The embodiments of the present application provide a data processing method and apparatus, an electronic device and a storage medium. The method comprises: extracting speech data of a first user from live stream data; recognizing the speech data to determine characteristic information corresponding to a target object; determining the target object and corresponding descriptive
10 information based on the characteristic information; and determining presentation information of the target object based on the target object and the descriptive information. The present disclosure can facilitate an operation of a user.
