(54) **Title:** TWO-DIMENSIONAL CODE RECOGNITION METHOD AND APPARATUS

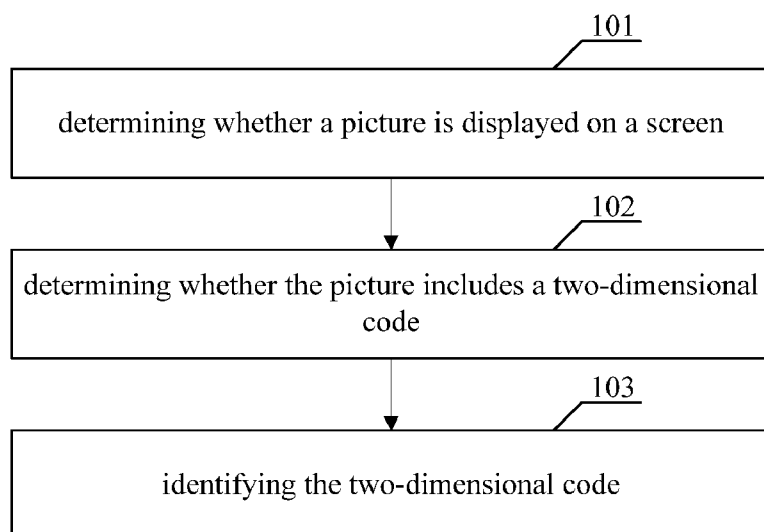

Fig.1

(57) **Abstract:** The embodiments of the disclosure provide a two-dimensional code recognition method and associated apparatus. The two-dimensional code recognition method comprises steps of determining whether there is a picture displayed on a screen ; determining whether the picture includes a two-dimensional code, when the picture is displayed on the screen ; and identifying the two-dimensional code, when the picture includes the two-dimensional code. According to the disclosure only when determining the picture includes a two-dimensional code, the two-dimensional code is identified, and cameras are not required for the recognition of the local two-dimensional code picture.
