(54) Title: A PUSH CHAIR

(57) **Abstract:** A foldable push chair (10) comprising a central body (12) assembly extending across the push chair substantially horizontally and perpendicularly to the normal direction of travel of the push chair (10), a handle assembly (26) connected to the central body (12) and extending therefrom; at least three wheel supporting legs (14, 16) rotatable around the central body (12) and extending from the central body (12), in the unfolded state one or more wheel supporting legs (14) extending in a forward direction from the central body (12) and one or more wheel supporting legs (16) extending in a rearward direction from the central body (12); the forward and rearward extending legs (14, 16) being coupled together such that they rotate in opposite directions around the central body (12) during a folding or unfolding operation.
