

ODOR SUBSTANCE RECEIVING LAYER, SENSOR ELEMENT
USING SAME, ODOR SENSOR, ODOR MEASUREMENT
DEVICE, AND COMPUTER-READABLE STORAGE MEDIUM

5 Abstract

An object is to provide an odor substance receiving layer
which has improved odor identification performance, a sensor
element using the odor substance receiving layer, an odor
sensor, and an odor measuring device. The object is attained
10 by an odor substance receiving layer containing a
polyesteramide (A) and a filler (B), a sensor element including
the odor substance receiving layer, an odor sensor, and an
odor measuring device.
