

ABSTRACT OF THE DISCLOSURE
IMAGE PROCESSING APPARATUS, CONTROL METHOD THEREOF, AND
STORAGE MEDIUM

5 The present invention provides an image processing apparatus
comprising detecting alteration of any application held in the image processing
apparatus; determining, in a case where alteration has been detected, whether or
not the use of the image processing apparatus needs to be restricted based on the
application in which alteration has been detected; and displaying, in a display unit
10 and as a result of the determination, in a case where the use of the image
processing apparatus needs to be restricted, a message indicating that alteration of
the application has been detected, and restricting the use of the image processing
apparatus, and in a case where the use of the image processing apparatus need not
be restricted, display, in the display unit, a message indicating that alteration of
15 the application has been detected.
