

WHEY PROTEIN GRANULES

ABSTRACT

An embodiment of the present invention relates to protein granules containing a whey protein as a main component, the protein granules having an average particle diameter of 207 μm to 570 μm , a homogeneity U of 0.58 or less, a content ratio (volume ratio) of coarse powder having a particle diameter of 500 μm or more of 22% or less, and a content ratio (volume ratio) of fine powder having a particle diameter of 150 μm or less of 31% or less.
