

ABSTRACT**AN INTEGRATED LEARNING AND KNOWLEDGE MANAGEMENT SYSTEM AND
METHOD THEREOF**

5

The present invention provides an integrated learning and knowledge management system (100) comprising a user environment platform (108) forming a front end interface (102), and interfacing platform (110) forming a middle platform (104) and an artificial intelligence learning platform (112) forming a back end platform (106). The user environment platform (108) comprises sub-modules such as the content creator (114), trainer (116) or learners (118). The interfacing platform (110) comprises a learning management platform (120) having a scheduler sub-module and a knowledge management platform (122). The artificial intelligence learning platform (112) comprises a recommender system. The present invention further provides a method for an integrated learning and knowledge management to a user on initiation of user environment to selecting an interfacing platform that initiates one or more recommendation modules.
