

Claims

1. A compound of formula I:

in which:

R₁ is selected from hydrogen and methyl;

R₂ is selected from pyridinyl and phenyl; wherein phenyl or pyridinyl can be substituted with a group selected from trifluoromethyl, 1,1-difluoroethyl and 2-fluoropropan-2-yl;

X and Y are independently selected from N and C-OCH₂CHR₃R₄; wherein R₃ is selected from hydrogen and OH; and R₄ is selected from 2-(phosphonooxy)methyl and phosphonooxy; with the proviso that if X is N, Y is C-OCH₂CHR₃R₄; and if Y is N, X is C-OCH₂CHR₃R₄; and

Z is selected from N and CH; or a pharmaceutically acceptable salt thereof.

2. The compound of claim 1 of formula Ia:

in which:

R₁ is selected from hydrogen and methyl;

R₂ is selected from pyridinyl and phenyl; wherein phenyl or pyridinyl can be substituted with a group selected from trifluoromethyl, 1,1-difluoroethyl and 2-fluoropropan-2-yl;

R₃ is selected from hydrogen and OH;

R₄ is selected from 2-(phosphonooxy)methyl and phosphonooxy; and

Z is selected from N and CH; or a pharmaceutically acceptable salt thereof.

3. The compound of claim 2, or a pharmaceutically acceptable salt thereof, selected from:

4. A compound or a pharmaceutically acceptable salt thereof, selected from:

5. A compound, or a pharmaceutically acceptable salt thereof, of formula:

6. A pharmaceutical composition comprising a compound of claim 1 or a pharmaceutically acceptable salt thereof and one or more pharmaceutically acceptable carriers.

7. A combination comprising a therapeutically effective amount of a compound of claim 1 or a

pharmaceutically acceptable salt thereof and one or more therapeutically active co-agents.

8. A method of treating a proliferative disorder selected from ovarian cancer, non-small cell lung cancer and cancers driven by Ras mutations, comprising administering to a subject in need thereof a therapeutically effective amount of a compound of claim 1 or a pharmaceutically acceptable salt thereof.

9. A compound according to claim 1, or a pharmaceutically acceptable salt thereof, for use as a medicament.

10. A compound according to claim 1, or a pharmaceutically acceptable salt thereof, for use in the treatment of cancer.
