【CLAIMS】

【Claim 1】

A carrier for a cosmetic composition comprising a layered structure of foamed urethane.

【Claim 2】

The carrier for a cosmetic composition according to claim 1, wherein the foamed urethane comprises polyether-based foamed urethane.

【Claim 3】

The carrier for a cosmetic composition according to claim 1, wherein the foamed urethane has a network structure.

【Claim 4】

The carrier for a cosmetic composition according to claim 1, which comprises two or more layers of foamed urethane.

【Claim 5】

The carrier for a cosmetic composition according to claim 4, wherein the layers of foamed urethane are different from each other in at least one selected from the type of foamed urethane, number of pores per inch of foamed urethane, pore size and layer thickness.

【Claim 6】

The carrier for a cosmetic composition according to claim 5, wherein the type of foamed urethane comprises dry foamed urethane or wet foamed urethane.

【Claim 7】

The carrier for a cosmetic composition according to claim 5, wherein the number of pores per inch of foamed urethane is 55 ppi-130 ppi (pore per inch).

【Claim 8】

The carrier for a cosmetic composition according to claim 5, wherein the pore size of foamed urethane is 500-900 μm.

【Claim 9】

The carrier for a cosmetic composition according to claim 5, wherein the layer thickness of foamed urethane is 0.05 mm-30 mm.

【Claim 10】

The carrier for a cosmetic composition according to claim 1, which comprises at least two layers of foamed urethane, wherein any one of the foamed urethane layers is compressed polyether-based foamed urethane.

【Claim 11】

The carrier for a cosmetic composition according to claim 10, wherein the compressed polyether-based foamed urethane is obtained by hot pressing.

【Claim 12】

The carrier for a cosmetic composition according to claim 1, which further comprises a nonwoven web layer.

【Claim 13】

The carrier for a cosmetic composition according to claim 12, wherein the nonwoven web comprises at least one of rayon, polyester, polyethylene, polyethylene terephthalate, polylactic acid, silk, bamboo fibers and cotton.

【Claim 14】

The carrier for a cosmetic composition according to claim 1, which comprises at least two layers and the uppermost layer and the lowermost layer are sealed together by ultrasonic waves, heat, a binder or adhesive.

【Claim 15】

The carrier for a cosmetic composition according to claim 1, wherein the cosmetic composition comprises a liquid composition.

【Claim 16】

The carrier for a cosmetic composition according to claim 1, wherein the

cosmetic composition comprises a water-in-oil (W/O) type or oil-in-water (O/W) type composition.

【Claim 17】

A cosmetic product comprising the carrier for a cosmetic composition as defined in any one of claims 1 to 16, impregnated with a cosmetic composition.

【CLAIMS】

【Claim 1】

A carrier for a cosmetic composition supporting the cosmetic composition comprising a layered structure of polyether-based foamed urethane which comprises two or more layers of foamed urethane, wherein the layers of foamed urethane are different from each other in at least one selected from the type of foamed urethane, number of pores, pore size and layer thickness.

【Claim 2】

The carrier for a cosmetic composition according to claim 1, wherein the foamed urethane has a network structure.

【Claim 3】

The carrier for a cosmetic composition according to claim 1, wherein the type comprises dry foamed urethane or wet foamed urethane.

【Claim 4】

The carrier for a cosmetic composition according to claim 1, wherein the number of pores is 55 ppi-130 ppi (pore per inch).

【Claim 5】

The carrier for a cosmetic composition according to claim 1, wherein the pore size is 500-900 μm.

【Claim 6】

The carrier for a cosmetic composition according to claim 1, wherein the layer thickness of each layer of foamed urethane is 0.05 mm-30 mm.

【Claim 7】

The carrier for a cosmetic composition according to claim 1, wherein the layer of foamed urethane is compressed polyether-based foamed urethane.

【Claim 8】

The carrier for a cosmetic composition according to claim 7, wherein the compressed polyether-based foamed urethane is obtained by hot pressing.

【Claim 9】

The carrier for a cosmetic composition according to claim 1, which further comprises a nonwoven web layer.

【Claim 10】

The carrier for a cosmetic composition according to claim 9, wherein the nonwoven web comprises at least one of rayon, polyester, polyethylene, polyethylene terephthalate, polylactic acid, silk, bamboo fibers and cotton.

【Claim 11】

The carrier for a cosmetic composition according to claim 1, wherein the layers of foamed urethane are sealed together by ultrasonic waves, heat, a binder or adhesive.

【Claim 12】

The carrier for a cosmetic composition according to claim 1, wherein the cosmetic composition comprises a liquid composition.

【Claim 13】

The carrier for a cosmetic composition according to claim 1, wherein the cosmetic composition comprises a water-in-oil (W/O) type or oil-in-water (O/W) type composition.

【Claim 14】

A cosmetic product comprising the carrier for a cosmetic composition as defined in any one of claims 1, 2 and 3 to 13, impregnated with a cosmetic composition.
