

Abstract

The present invention provides a fused ring nitrogen-containing compound, a crystal form thereof, a preparation method therefor, and the use thereof. Specifically provided is a solvate of a compound represented by formula (I), a salt of the compound represented by formula (I), or a solvate of the salt of the compound represented by formula (I). The fused ring nitrogen-containing compound and the crystal form thereof provided by the present invention have good pharmaceutical activity and wide medicinal prospects.

No Figure.
