

A rectangular block, labeled 120, is shown with diagonal hatching lines. The block is oriented horizontally and is filled with parallel diagonal lines sloping downwards from left to right. The number 120 is positioned to the right of the block, with a leader line pointing to its right side.

A cross-sectional view of a substrate 100. The substrate 100 is composed of two layers: a first layer 120 and a second layer 130. The first layer 120 is the bottom layer and is filled with diagonal hatching lines sloping from the top-left to the bottom-right. The second layer 130 is the top layer and is filled with a cross-hatch pattern. The layers are separated by a thin horizontal line.
