

ABSTRACT

The present application provides a protective film, a cover assembly, and a battery cell. The protective film includes a first film layer provided with an installation surface located on one side of first film layer; an adhesive layer attached to the installation surface
5 and including a first area and a second area surrounding the first area; and a second film layer disposed on one side of the adhesive layer away from the first film layer and located in the first area. The second area of the adhesive layer is configured to connect with a top cover of a battery cell.
