COMPOSITIONS AND METHODS RELATED TO MRNA TRANSLATIONAL ENHANCER ELEMENTS

Abstract

Provided are mRNA translational enhancer elements (TEEs), *e.g.*, SEQ ID NOs: 1-35. Also provided are translational enhancer polynucleotides that comprise one or more of the specific TEEs exemplified herein or their variants, homologs or functional derivatives. Further provided are expression vectors comprising such TEEs or translational enhancer polynucleotides, as well as host cells and expression systems that harbor such vectors.
