

ABSTRACT

GAME TOKEN TRAY, TABLE GAME MANAGEMENT SYSTEM, GAME TOKEN TRAY SYSTEM, AND GAME TOKEN MANAGEMENT METHOD

A novel game token tray system including a game token tray having a dual tray structure in which a game token is stored is provided. The game token tray system includes a double tray including a lower tray (172) and an upper stage (171) stacked on the lower tray to store a game token (120) provided with an RF tag (125) in which tag information is stored, a camera (2) that acquires tray image data by imaging the game token (120) stored in the upper tray (171), an RFID reading device (170) that reads the tag information from the RF tag (125) of the game token (120) stored in the lower tray (172), and a game recording device (11) that records the tray image data and/or an image analysis result of the tray image data about the game token (120) stored in the upper tray (171) and records the tag information read by the RFID reading device (170) about the game token (120) stored in the lower tray (171).
