900 ↗

Partial Number of sectors	Total number of sector	Number of RX antennas	Timing to start partial BF after T_0	Timing to switch to full sector sweep after T_0	Request /Agree to switch roles
------------------------------	---------------------------	--------------------------	---	---	-----------------------------------

FIG. 9

1000 

Field	When sent by the initiator	When sent as part of a response
Partial Number of sectors	The number of TX sectors used by the initiator in the partial sectors sweep	The number of TX sectors used by the responder in the partial sectors sweep
Total Number of sectors	The number of TX sectors used by the initiator in the full sectors sweep	The number of TX sectors used by the responder in the full sectors sweep
Number of Rx Antennas	The number of RX antennas to be used by the initiator when receiving the both sweeps	The number of RX antennas to be used by the responder when receiving the both sweeps
Time to start partial BF after T_0	Time to start partial beamforming after beamformed link maintenance timer expires	Time to start partial beamforming after beamformed link maintenance timer expires
Time to start full BF after T_0	Time to start full beamforming after beamformed link maintenance timer expires	Time to start full beamforming after beamformed link maintenance timer expires
Request/Agree to switch roles	Request to change initiator/responder roles	Set to 1 if agree to requested initiator/responder role change
