(54) Title: HIGH-FILTRATION REUSABLE FACE MASK

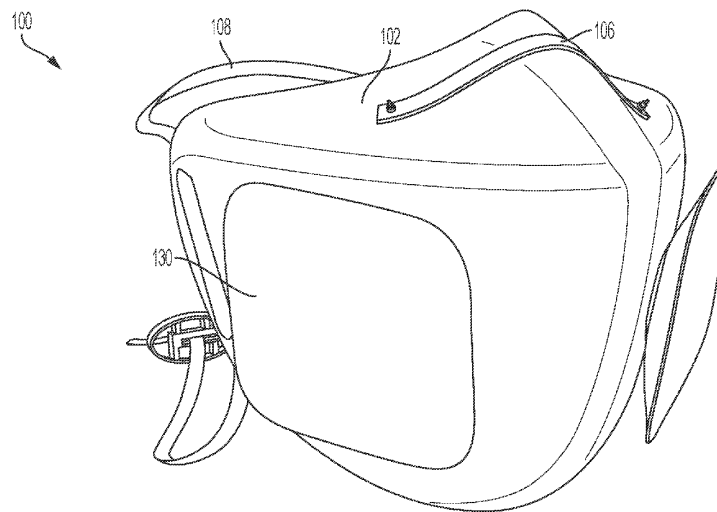

FIG. 1

(57) Abstract: Provided are high-filtration reusable face masks with replaceable filters. Reusable face masks can comprise a single piece mask body configured to cover a nose and a mouth of a human face and comprising at least one filter attachment port, wherein the at least one filter attachment port comprises a filter support structure, defines an opening in the mask body, and extends from the exterior surface of the mask body; wherein the at least one filter attachment port is configured to connect to a replaceable filter and support the replaceable filter by separating portions of filter media of the replaceable filter when the replaceable filter is attached to the at least one filter attachment port.
