(54) Title: MATERIAL HANDLING APPARATUS WITH VEHICLE TRACK FOR REDUCING VEHICLE DAMAGE

FIG. 1

(57) Abstract: A method and apparatus are provided for delivering items to a plurality of storage locations. The system includes a plurality of storage locations. The storage locations may be positioned to provide an aisle and a plurality of delivery vehicles may be operable within the aisle to deliver items to the storage locations. The system may include a track that guides the vehicles to the storage locations. A reorientation assembly may be provided for re-orienting the vehicles relative to the track to reduce misalignment between the vehicles and the track.
