(54) Title: METHOD AND SYSTEM FOR PERMISSION MANAGEMENT

(57) Abstract: The present disclosure proposes methods, devices, systems, and computer programs for adding further permissions to a first permit. In more detail, the method of the first aspect comprises: receiving a request comprising a first permit identifier, wherein the first permit identifier identifies the first permit, and obtaining a first permit data based on the first permit identifier wherein the first permit data comprises data indicative of at least one permission and wherein the at least one permission provides an indication of one or more actions a holder of the first permit can take and/or what the holder of the first permit is allowed to do, wherein the request is to add a set of further permissions to the first permit and the request comprises the set of further permissions.
