(54) Title: LAMINATED SHEET AND PROCESS FOR MANUFACTURE OF A LAMINATED SHEET

(57) Abstract

A process for manufacturing a laminated sheet is disclosed. The first step of the process comprises adhering together a sheet of metal foil (3) and a sheet of paper (4). Thereafter, the process comprises printing an image on an outer surface of the paper (4) or embossing the image on the metal foil (3). Where the image is first printed on the paper (4), the process further comprises the step of embossing a mirror of the image on the metal foil (3) in registration with the printed image. Alternatively, where the image is first embossed on the metal foil (3), the method further comprises printing a mirror of the image on the outer surface of the paper (4) in registration with the embossed image on the metal foil (3).
