and/or a discard slot 42 for discarding the cards C used in the game. When the game is ended, the cards C used in the game are collected and discarded in the discard area 41 or the discard slot 42 on the gaming table 4.

[0000]

The gaming table 4 is further provided with a marker 43 indicating win or lose of the game. FIG. 5A is a plan diagram illustrating a front side of the marker, and FIG. 5B is a plan diagram illustrating a back side of the marker. In a baccarat game, used are two types of markers, that is, a marker 43a indicating win of a player and a marker 43b indicating win of the banker. In FIGS. 5A and 5B, the Chinese character "庄" means "BANKER", the Chinese character "閒" means "PLAYER", the Chinese character "庄贏" means "BANKER WINS", and the Chinese character "閒贏" means "PLAYER WINS". When a result of the game is decided, the dealer 5 faces down the marker of the winning side of the player and the banker. Therefore, the win or lose of the game can be easily found on the table. After the end of the collection of the chips 9 and the redemption, the faced-down maker is returned to the initial state by the dealer 5. If the maker is returned to the initial state, the state denotes that the next game can be started.

In this manner, in the embodiment, the control device 14 calculates balance in chips from the amount of the betting chips on the gaming table 4 for each game and the win or lose result of the game and verifies the increased amount of the balance of the chips in the chip tray 17 after the game. If the difference is detected in the verification, the control device 14 issues caution or adds the record indicating this
