4/4

FIG. 3A

**CRT0364436/TEV-44229**

- Potent biochemical and cellular activity
- Good kinase, CEREP and PDE selectivity
- PK-PD modulation, efficacy in multiple models

FIG. 3B

**CRT0422839/TEV-47448**

- Comparable activity, kinase, CEREP receptor and PDE selectivity
- Mitigated hERG activity
- No *in vivo* hydrolysis metabolite (rodents)
