(54) Title: ABSORBENT ARTICLE HAVING A FIT GUIDE

(57) Abstract: An absorbent article method for correctly placing an absorbent article having a longitudinal centerline and adapted to be worn in an undergarment having a crotch portion bounded on opposite sides by portions of curved leg openings. The absorbent article comprises a main body portion, the main body portion comprising a liquid pervious body-facing surface, a liquid impervious garment facing surface, and an absorbent core positioned between the body-facing surface and the garment-facing surface. The absorbent article comprises at least one indicator marker visible from the body-facing surface, the indicator markers disposed to indicate proper alignment of the absorbent article with respect to undergarment-specific features such as the curved leg openings.
