Claims:

1. ~~A method of treating an individual with peanut allergy which comprises:~~
~~(1) providing an individual with peanut allergy,~~
~~(2) orally administering a daily dose of~~ Use of peanut protein in the manufacture of a medicament for the treatment of peanut allergy in an individual~~to the patient~~, wherein the medicament is to be administered as follows:

(1) wherein the medicament is to be orally administered daily, wherein the daily oral dose is increased at intervals of at least 2 weeks in a series of increments from an initial dose to a maximum dose, the series of dose increments including 2mg, 5mg, 12.5mg, 25mg, 50mg, 100mg, 200mg, 400mg and 800mg,

(~~3~~2) ~~administering~~ wherein a daily oral dose of the maximum dose of peanut protein is to be administered for at least 2 years following step ~~2~~1,

(~~4~~3) ~~administering~~wherein a weekly oral dose of the maximum dose of peanut protein is to be administered for at least 2 years following step ~~3~~2.

2. A use ~~method~~ according to claim 1 wherein the initial dose is 2mg.

3. A use ~~method~~ according to ~~any one of the preceding~~ claim~~s~~ 1 wherein the maximum dose is 800mg.

4. A use ~~method~~ according to ~~any one of the preceding~~ claim~~s~~ 1 wherein the series of dose increments consists of 2mg, 5mg, 12.5mg, 25mg, 50mg, 100mg, 200mg, 400mg and 800mg.

5. A use ~~method~~ according to ~~any one of the preceding~~ claim~~s~~ 1 wherein the peanut protein is administered as peanut flour.

6. A use ~~method~~ according to claim 5 wherein the peanut flour is admixed with a carrier for administration.

7. A use ~~method~~ according to claim 6 wherein the carrier is a dairy or dairy substitute product.

8. A use ~~method~~ according to ~~any one of the preceding~~ claim~~s~~ 1 comprising monitoring levels of serum anti-peanut IgE during the treatment.

9. A use ~~method~~ according to ~~any one of the preceding~~ claim~~s~~ 8 wherein the level of serum anti-peanut IgE in the serum of the individual is reduced or abolished by the treatment.

~~10. A therapeutic composition comprising peanut protein for use in a method of treating peanut allergy according to any one of claims 1 to 9.~~

~~11. Use of a therapeutic composition comprising peanut protein in the manufacture of a medicament for use in a method of treating peanut allergy according to any one of claims 1 to 9.~~

~~12. A therapeutic composition or use according to claim 10 or claim 11 wherein the therapeutic composition is in unit dosage form and contains a dose selected from 2mg, 5mg, 12.5mg, 25mg, 50mg, 100mg, 200mg, 400mg and 800mg.~~

~~13~~10. A set of therapeutic compositions, the set comprising multiple individual unit dose formulations comprising peanut protein,

wherein the amount of peanut protein in each unit dosage formulation in the set is identical and is selected from 2mg, 5mg, 12.5mg, 25mg, 50mg, 100mg, 200mg, 400mg and 800mg.

~~14~~11. A group of sets of therapeutic compositions,

wherein each set in the group comprises multiple separate unit dose formulations comprising peanut protein and each unit dosage formulation in the set comprises an identical amount of peanut protein, and

wherein the group includes sets with unit dosage formulations which contain 2mg, 5mg, 12.5mg, 25mg, 50mg, 100mg, 200mg, 400mg and 800mg of peanut protein.

~~15~~12. A set ~~or group of sets~~ according to claim ~~13~~ 10 ~~or claim 14~~ wherein the set ~~or each set in the group~~ comprises fourteen unit dose formulations.

~~16~~13. A set ~~or group of sets~~ according to ~~any one of~~ claim~~s~~ ~~13~~ 10 ~~to 15~~ wherein the unit dose formulations are separately packaged.

~~17. A set or group of sets according to any one of claims 13 to 16 wherein the set or each set in the group is separately packaged.~~

~~18. A set or group of sets according to any one of claims 13 to 17 for use as a medicament.~~

~~19. A set or group of sets according to any one of claims 13 to 18 for use in a method of treating peanut allergy.~~

~~20. A set or group of sets according to claim 19 wherein the method is a method of any one of claims 1 to 9.~~

~~21. Use of a set or group of sets according to any one of claims 13 to 18 in the manufacture of a medicament for use in a method of treating peanut allergy.~~

~~22. Use according to claim 21 wherein the method is a method of any one of claims 1 to 9.~~

~~23~~14. A ~~therapeutic composition, group, or use~~ set according to ~~any one of~~ claim~~s~~ 10 ~~to 22~~ wherein the peanut protein is contained in peanut flour.

~~24~~15. A ~~therapeutic composition, group, or use~~ set according to claim ~~23~~ 14 wherein the peanut flour is admixed with a carrier for administration.

~~25~~16. A ~~therapeutic composition, group, or use~~ set according to claim ~~24~~ 15 wherein the carrier is a dairy or dairy substitute product.

17. A group of sets according to claim 11 wherein each set in the group comprises fourteen unit dose formulations.

18. A group of sets according to claim 11 wherein the unit dose formulations are separately packaged.

19. A group of sets according to claim 11 wherein each set in the group is separately packaged.

20. A group of sets according to claim 11 wherein the peanut protein is contained in peanut flour.

21. A group of sets according to claim 20 wherein the peanut flour is admixed with a carrier for administration.
