ABSTRACT

MALEIMIDE COMPOUND, CURABLE RESIN COMPOSITION AND CURED PRODUCT THEREOF, AMINE COMPOUND AND REACTION PRODUCT OF AMINE COMPOUND WITH MALEIC ANHYDRIDE

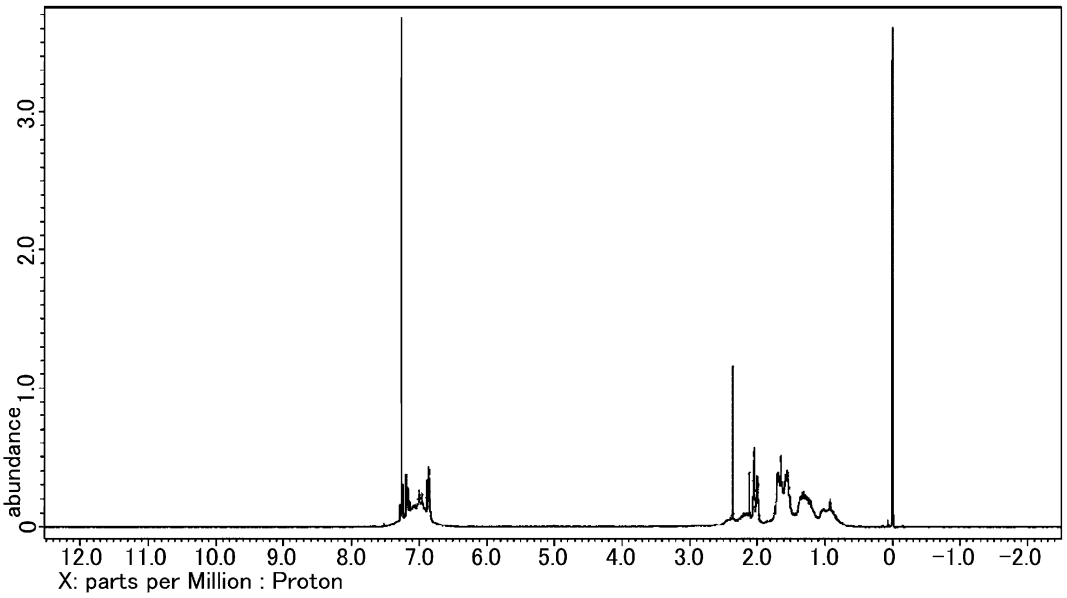

Provided are a maleimide compound, a curable resin composition and a cured product thereof that have high heat resistance, excellent low dielectric properties and good curability, and an amine compound and a reaction product of an amine compound with maleic anhydride to be used as starting materials thereof. The maleimide compound is represented by formula (1).

(1)

(2)

[In formula (1), multiple Rs independently represent a hydrocarbon group having 1-10 carbon atoms or a haloalkyl group. X is represented by formula (2). m is an integer of 0-4, and n represents the number of repetitions and the average n_{ave} of n satisfies $1 \leq n_{ave} \leq 20$.]

[In formula (2), multiple Rs independently represent a hydrocarbon group having 1-10 carbon atoms or a haloalkyl group. p is an integer of 0-4, and q is an integer of 0-3. r represents the

number of repetitions, and the average r_{ave} of r satisfies $1 \leq r_{ave} \leq 20$. * represents the binding site to the aromatic ring of formula (1).]
