CLAIMS

1. Use of a combustible gas for gas cutting of an object, the combustible gas comprising ethylene at a concentration of greater than 0% by volume and less than 18% by volume, with a remainder being hydrogen and unavoidable impurities.

2. The use according to claim 1, wherein
the combustible gas is encapsulated in a container, and
a pressure in the container at 35 °C is 1 MPa or more and 50 MPa or less.

3. The use according to claim 1 or 2, wherein a concentration of the unavoidable impurities is 1.0% by volume or less.

4. The use according to claim 1 or 2, wherein the object is steel.
