(54) Title: FEED OR FOOD PRODUCTS COMPRISING FUNGAL MATERIAL

(57) Abstract: The present invention relates to feed and food compositions comprising material obtained by fermenting fungi of the Basidiomycetes family in a liquid medium. Interestingly, Basidiomycetes grown in a liquid culture produce compounds which, when used in feed or food compositions enhance survival and/or support growth of normal, healthy animals. Furthermore, the compounds may modulate the microbial population in the digestive tract after oral intake.
