CLAIMS

1. A cleansing cosmetic, comprising:

(A) 70 to 95 % by mass of an oil that is in the form of liquid at normal temperature;

(B) at least one selected from polyoxyethylene sorbeth-30 tetraisostearate and polyoxyethylene sorbeth-30 tetraoleate; and

(C) a polyoxyethylene glyceryl ether fatty acid ester,

wherein

a nonpolar hydrocarbon oil accounts for 40 % by mass or more of the component (A), and

the ratio [(C)/(B)] of the blending quantity of the component (C) to that of the component (B) ranges from 0.20 to 0.70, and wherein

the cosmetic comprises no water-soluble reducing agent.

2. The cleansing cosmetic according to claim 1, wherein the (C) polyoxyethylene glyceryl ether fatty acid ester is one or two or more selected from the group consisting of a polyoxyethylene glyceryl monoisostearic acid ester, a polyoxyethylene glyceryl diisostearic acid ester, and a polyoxyethylene glyceryl triisostearic acid ester having HLB = 5 to 10.

3. The cleansing cosmetic according to claim 1 or 2, wherein the nonpolar hydrocarbon oil is one or two or more selected from the group consisting of mineral oil, squalane, squalene, isododecane, and isohexadecane.

4. The cleansing cosmetic according to any one of claims 1 to 3, comprising no water.
