(54) **Title:** MOSAIC PIECE**Fig. 1C**

(57) **Abstract:** A mosaic piece having a body contour inscribed within a circle, and being formed with at least one projection having a projection contour. The body contour and the projection contour coincide at points P_1 and P_2 . The inner circle further contains a point P_3 located outside the projection contour so that the angular distance of P_3 from P_1 is equal to the angular distance of P_2 from P_1 with respect to the center of the inner circle. The projection contour further contains a point P_a so that the entire projection contour is located on one side of a reference border line B.L. extended between point P_3 and a point P_a . The mosaic piece being formed with a locking recess having a locking recess contour defined between points P_3 - P_1 - P_a . The projection contour further comprising a point P' between points P_a and P_1 . The projection is formed with an engagement portion having an engagement contour defined between points P' - P_a - P_2 and a line L extending between points P' and P_2 . The engagement portion is of corresponding shape and size to be fully contained within the locking recess.
