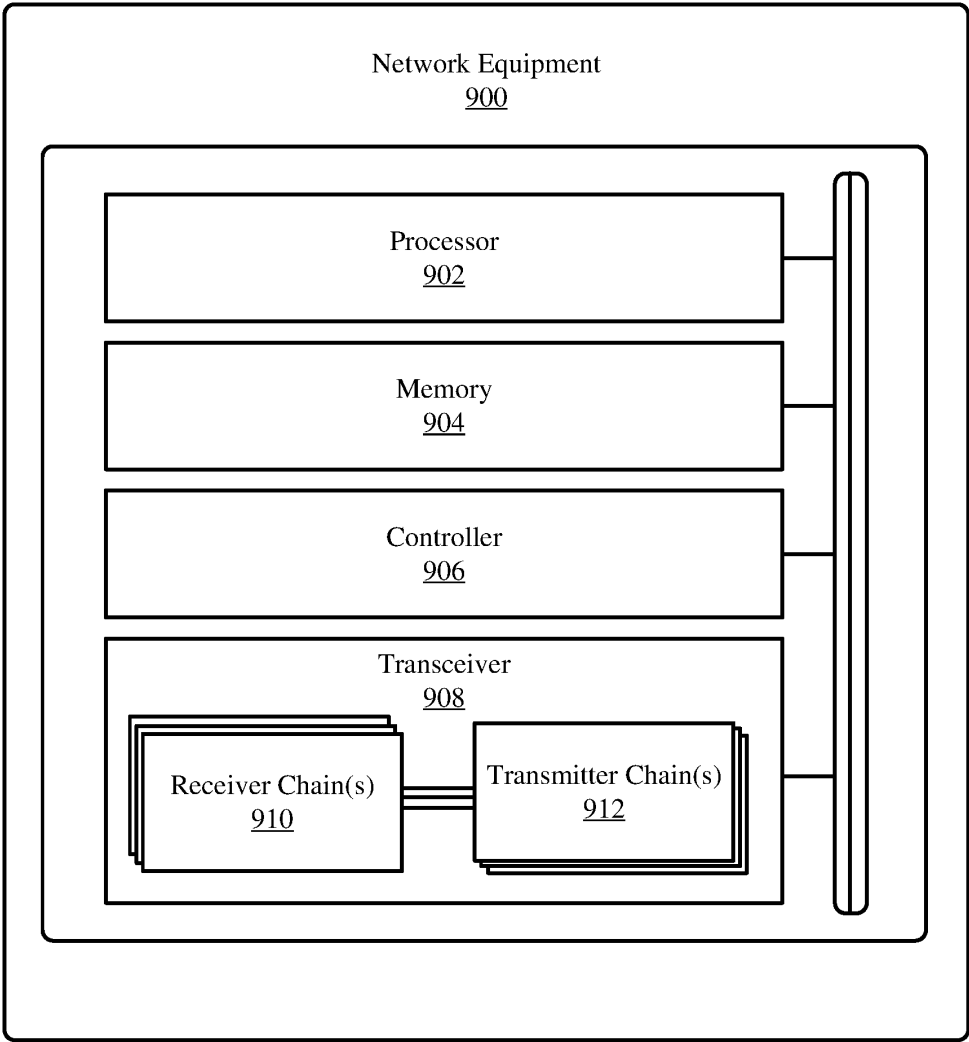

FIG. 9

1000

Receiving a request message comprising an identifier of a machine learning (ML) model and a performance threshold associated with the ML model

1002

Obtaining the ML model based at least in part on the identifier of the ML model

1004

Determining whether a performance of the ML model satisfies the performance threshold associated with the ML model

1006

Transmitting a response message comprising an indication of whether the performance of the ML model satisfies the performance threshold

1008
