

ABSTRACT OF THE DISCLOSURE

Title of the invention: **URINE ABSORBING PAD**

(1) A urine absorbing pad comprising a laminate including: a liquid permeable internal surface sheet; a liquid impermeable external surface sheet; and an absorbent core sandwiched between the internal and external surface sheets. The laminate forming a bag body having an opening, at which the internal surface sheet is directed inward, the opening being positioned closer to an upper end of the bag body than to a lower end of the bag body. The upper end and the lower end are extended substantially at a right angle with respect to each other.

(2) A urine absorbing pad comprising a laminate including: a liquid permeable internal surface sheet; a liquid impermeable external surface sheet; and an absorbent core sandwiched between the internal and external surface sheets. The laminate forming a bag body having an opening, at which the internal surface sheet is directed inward, the opening being positioned closer to an upper end of the bag body than to a lower end of the bag body. The opening is formed into a slit shape having a longitudinal direction from the upper end toward the lower end.
